

## ○ Microphones

DSSC sells and service many difference type of microphones. Call today - 1-800-242-1624.

### USB Microphones:

- **Philips SpeechMike Air (Push and Slide Switch)** - The Philips SpeechMike 3000/3010 Air is specifically designed to meet the tough challenges of document-intensive professions. It represents the perfection of desktop dictation, no longer restraining it by a cord. The pure, timeless design, its outstanding ergonomics, and the sophisticated functionality in conjunction with superb recording quality make it a milestone in professional dictation.

- **Philips SpeechMike III (Push and Slide Switch)** - The professional SpeechMike 3200/3210 USB microphone takes stationary dictation to a new level. It delivers excellent speech recognition capabilities, an antimicrobial surface for improved hygiene, and refined ergonomics for easy operation.

- **Philips SpeechMike Premium (Push and Slide Switch)** - The SpeechMike 3500/3510 Premium takes dictation to a new level. May it be the free-floating studio quality Precision Microphone, a microphone grille with optimized structure, built-in noise-reduction pop filter, antimicrobial surface or the world's first motion sensor in a stationary digital dictation device – the SpeechMike Premium sets the new standard.

- **Philips SpeechMike Premium Bar Code (Push and Slide Switch)** - The SpeechMike 3600/3610 Premium takes dictation to a new level. May it be the free-floating studio quality Precision Microphone, a microphone grille with optimized structure, built-in noise-reduction pop filter, antimicrobial surface or the world's first motion sensor in a stationary digital dictation device – the SpeechMike Premium sets the new standard.

- **Gooseneck Microphone** - The GN-USB is a uni-directional gooseneck microphone with a flexible 18 inch neck so you can dictate clearly from any angle. Its sturdy base keeps it in place and prevents it from tipping over. The noise canceling ability will keep your dictation crisp and clean, even with low-level background noise.

#### **Dictate Microphones:**

- **Philips SpeechMike Air (Push and Slide Switch)** - The Philips SpeechMike 3000/3010 Air is specifically designed to meet the tough challenges of document-intensive professions. It represents the perfection of desktop dictation, no longer restraining it by a cord. The pure, timeless design, its outstanding ergonomics, and the sophisticated functionality in conjunction with superb recording quality make it a milestone in professional dictation.

- **Philips SpeechMike III (Push and Slide Switch)** - The professional SpeechMike 3200/3210 USB microphone takes stationary dictation to a new level. It delivers excellent speech recognition capabilities, an antimicrobial surface for improved hygiene, and refined ergonomics for easy operation.
